## EDUCATION

2024 - 2028

### B.Tech - Computer Science & Engineering

Maharishi Markandeshwar  
Deemed to be University

• Avg CGPA: 7.92/10

• Sem 1: 7.04 | Sem 2: 8.59 |

Sem 3: 7.6 | Sem 4: 8.48 |

## SKILLS

### Programming:

C, C++, Java, Python

### Tools & Tech:

MS Excel, Salesforce, Arduino IDE,  
Git, Vs code, AntiGravity

## ABOUT ME

Motivated Computer Science Engineering student with strong programming foundations. Demonstrated intense dedication to academic growth, rapidly scaling technical performance while actively gaining hands-on knowledge in emerging tech fields. Seeking placement opportunities to translate academic blueprints into industrial solutions.

## PROJECTS & TRAINING

### Arduino-Based Prototype on Self-Driving Car

Link: <https://github.com/Kishan-shah12/Arduino-Based-Prototype-on-Self-Driving-Car>

- Designed and executed an autonomous vehicular hardware prototype powered by Arduino architecture.
- Programmed localized logic arrays managing object-detection protocols and real-time obstacle navigation environments.

### Ayurveda Daily

Live URL Link : <https://ayurveda-daily-advisor.vercel.app>

- Designed for designed to support our wellness journey by providing personalized Ayurvedic wisdom, daily routines, and natural remedies tailored to balance your unique mind-body constitution.
- It helps to people gain knowledge about natural remedies and integrate simple Ayurvedic rituals, mindful eating, and cooling habits into your daily routine to reduce stress, improve digestion, and keep our energy perfectly balanced.

### Academic Projects Portfolio (CSE Curriculum)

- Built multiple fundamental software utilities applying Java and Object-Oriented Programming (OOP) architectures.
- Engineered algorithms resolving complex data structure logic problem-sets.

**Databases:** MySQL

**Core Domains:**

OOPs, Problem Solving, Logic Frameworks

**LANGUAGES**

English

Hindi

Nepali

---

## RESEARCH & DEVELOPMENT

---

### Emerging Technologies & Domain Explorations

- Investigating fundamental neural behaviors and workflows as part of active AI/ML skill development tracks.
- Analyzing micro-architecture security protocols to formulate protective layouts against modern software vulnerabilities.
- Exploring edge-computing options to scale hardware logic systems natively.

---

## CERTIFICATIONS & TRAINING

---

- **Trailhead Salesforce Champion** — Platform badge for completing intensive cloud workflows.
- **Trailhead Salesforce Innovator** — Validated expertise in building custom cloud ecosystem solutions.
- **AI / ML Bootcamp Certification (5 Days)** — Intensive exposure to model concepts and intelligence arrays.
- **Cyber Security Bootcamp Certification (7 Days)** — Covered introductory landscape safety, system defenses, and cryptographic basics.
- **Gen Ai APAC Edition cohort 2 Certification of Participation** – learned hands on building on project , AI skills, team co-ordination experience.

---

## EXPERIENCE

---

### Fresher / Technical Intern Aspirant

- Actively seeking technical placement or internships to scale knowledge structures inside professional production spaces.
