EDUCATION

2024 - 2028

B.Tech - Computer Science & Engineering

Maharishi Markandeshwar University

• Avg CGPA: 7.92/10

• Sem 1: 7.04 | Sem 2: 8.59 |

Sem 3: 7.6 | Sem 4: 8.48 |

SKILLS

Programming:

C, C++, Java, Python

Tools & Tech:

MS Excel, Salesforce, Arduino IDE, Git, Vs code

Databases: MySQL

ABOUT ME

Motivated Computer Science Engineering student with strong programming foundations. Demonstrated intense dedication to academic growth, rapidly scaling technical performance while actively gaining hands-on knowledge in emerging tech fields. Seeking placement opportunities to translate academic blueprints into industrial solutions.

PROJECTS & TRAINING

Arduino-Based Prototype on Self-Driving Car

🌐 Deployment Link: <https://github.com/Kishan-shah12/Arduino-Based-Prototype-on-Self-Driving-Car>

- Designed and executed an autonomous vehicular hardware prototype powered by Arduino architecture.
- Programmed localized logic arrays managing object-detection protocols and real-time obstacle navigation environments.

Academic Projects Portfolio (CSE Curriculum)

- Built multiple fundamental software utilities applying C and C++ Object-Oriented Programming (OOP) architectures.
- Engineered algorithms resolving complex data structure logic problem-sets.

RESEARCH & DEVELOPMENT

Emerging Technologies & Domain Explorations

- Investigating fundamental neural behaviors and workflows as part of active AI/ML skill development tracks.
- Analyzing micro-architecture security protocols to formulate protective layouts against modern software vulnerabilities.
- Exploring edge-computing options to scale hardware logic systems natively.

Core Domains:

OOPs, Problem Solving, Logic Frameworks

LANGUAGES

English

Hindi

Nepali

CERTIFICATIONS & TRAINING

- **Trailhead Salesforce Champion** — Platform badge for completing intensive cloud workflows.
 - **Trailhead Salesforce Innovator** — Validated expertise in building custom cloud ecosystem solutions.
 - **AI / ML Bootcamp Certification (5 Days)** — Intensive exposure to model concepts and intelligence arrays.
 - **Cyber Security Bootcamp Certification (7 Days)** — Covered introductory landscape safety, system defenses, and cryptographic basics.
-

EXPERIENCE

Fresher / Technical Intern Aspirant

- Actively seeking technical placement or internships to scale knowledge structures inside professional production spaces.
